Volume 23 1999

Progress in Physical Geography

Articles

Applied physical geography in New Zealand *R.M. Kirk, R.K. Morgan, M.B. Single and B. Fahey* 525
Coastal geomorphology in New Zealand, 1989–99 *P.A. Hesp, M.J. Shepherd and K. Parnell* 501
Controls on the formation and sudden drainage of glacier-impounded lakes: implications for jökulhlaup characteristics *Fiona S. Tweed and Andrew J. Russell* 79
Domestication and the origins of agriculture: an appraisal *A.M. Mannion* 37
Forest ecosystem simulation modelling: the role of remote sensing *Neil S. Lucas and Paul J. Curran* 391
From GCMs to river flow: a review of downscaling methods and hydrologic modelling approaches *Chong-yu Xu* 229
Hyperspectral remote sensing for estimating biophysical parameters of forest ecosystems *Paul M. Treitz and Philip J. Howard* 359
Mesoscale and local climates in New Zealand *Andrew P. Sturman, Hamish A. McGowan and Rachel A. Spronken-Smith* 611
On the origin, nature and uses of Antarctic ice-sheet radio-echo layering *Martin J. Siegert* 159
Palaeoenvironmental evidence for solar forcing of Holocene climate: linkages to solar science *Frank M. Chambers, Michael I. Ogle and Jeffrey J. Blackford* 181
Predicting regional climate change: living with uncertainty *Timothy D. Mitchell and Mike Hulme* 57
Quaternary environmental change in New Zealand: a review *R.M. Newnham, D.J. Lowe and P.W. Williams* 567
Research on glaciers and snow in New Zealand *Blair Fitzharris, Wendy Lawson and Ian Owens* 469
River morphology and management in New Zealand *P. Mosley and I. Jowett* 541
Snowmelt runoff models *R.I. Ferguson* 205
Sudden climate transitions during the Quaternary *Jonathan Adams, Mark Maslin and Ellen Thomas* 1
The sun–climate relationship in recent centuries: a review *Anne M. Waple* 309
The weather generation game: a review of stochastic weather models *D.S. Wilks and R.L. Wilby* 329

Progress reports

Arid geomorphology *David J. Nash* 429
Biogeography: changing places, changing times *Michael E. Meadows* 257
Geographical information science: geostatistics and uncertainty *Peter M. Atkinson* 134
Glaciers *David J.A. Evans* 441
Global warming *Mike Hulme* 283
Remote sensing *Daniel N.M. Donoghue* 271
Synergy and co-operation: collaborative coastal research projects *Diane P. Horn* 115
